PROFESSIONAL SUMMARY

Dynamic, results-driven AIML intern and Computer Engineering student with hands-on experience in machine learning, natural language processing (NLP), project coordination, and technical presentation development. Proficient in Python, Java, C++, and database architectures with a proven ability to translate complex theoretical concepts into deployed, scalable software solutions. Passionate about artificial intelligence and cybersecurity.

WORK EXPERIENCE

Supratech AI Innovations — *AIML Intern* **Nashik, India** | 05/2025 – 08/2025

- Collaborated with cross-functional engineering teams to develop and optimize innovative AI/ML algorithmic solutions.
- Authored comprehensive project documentation, architectural diagrams, and technical presentation reports.
- Researched and integrated modern technologies and automated workflows to streamline operational productivity.

EDUCATION

B.Tech in Computer Engineering — *NDMVP KBTCOE, Nashik* **Pursuing** | Direct Second Year

Academic Distinction: Mastered Data Structures & Algorithms (DSA) and Microprocessors with full out-of marks.

Diploma in Computer Technology — *K.K. Wagh Polytechnic, Nashik* **2023 – 2026 | 92.59%**

Graduated with First Class Distinction (92.59% / 93/100). Focus: C, C++, OS, Database & Networks.

Secondary School Certificate (SSC, 10th) — *Bhadgaon, India* **2022 – 2023 | 90.60%**

TECHNICAL SKILLS

Programming Languages:	Python, Java, C, C++, JavaScript, SQL
AI / Machine Learning:	Machine Learning, NLP, Scikit-learn, Pandas, Llama 3.1, Groq API
Frameworks & Tools:	FastAPI, Flask, Streamlit, Git, GitHub, VS Code, REST-API, JSON
Cybersecurity Concepts:	Security Fundamentals, Phishing Detection, Genomic Data Privacy, Heuristics

FEATURED PROJECTS

DebateGPT — *AI Debate Coach & Argument Analysis* 12/2025 – 03/2026

- Built an AI debate platform providing 95% accurate counter-arguments and automated speech analysis on argument strength and fluency. (30% improvement in public speaking). *GitHub: FinalProject_DebateGPT*

PharmaGuard — *AI Genomic Drug Safety & Counterfeit Prevention* 02/2026 – 03/2026

- Processed patient genetic VCF files (CYP2C9, CYP2D6, VKORC1) and trained classification model predicting patient-specific drug safety risks (Safe, Dosage Adjustment, Toxic) with confidence scores. *GitHub: Pharma_Guard*

KKW Smart Assistant — *College RAG Intelligence Chatbot* 02/2026 – 04/2026

- Automated web-scraping pipeline indexing official college datasets into structured JSON; connected retrieval context to Llama 3.1 via Groq API to provide verified institutional responses with source citations.

Milk Chilling Can (SIH Hackathon) & Crop Recommender 2025 – 2026

- **Milk Chiller Can:** Hardware/IoT thermal storage solution engineered for Smart India Hackathon to preserve dairy transit quality. *Prototype: Google Drive*
- **Crop Recommender:** ML classifier processing 7 soil and climatic metrics (N, P, K, pH, rainfall) for agricultural optimization.

CERTIFICATIONS & HONORS

- **RIFT '26 Hackathon (Participant):** PW Institute of Innovation, Pune (Team: The Debuggers | ID: 677e9f01-8850-4950)
- **AI Agents for Beginners:** Simplilearn Verified Certification
- **Youth Leadership for Climate Action:** UNICEF Maharashtra
- **Technical Paper Presentation Symposium:** Runner-Up Recognition
